War Ceases

At Least Officially

This week saw the official end of the war in Spain. The Republican defense crumbled and the Nationalists took over every large city. Valencia, third largest city, fell 24 hours after Madrid.

Supreme Court

President Roosevelt has named Chairman Orville Douglas of SEC to fill the vacancy left by Louis D. Brandeis (resigned) on the U. S. Supreme court.

Pneumonia Licked

Every year 450,000 people in the U. S. get pneumonia. Every year more than 100,000 of them succumb. Next year, if they receive prompt and proper medical care, there seems to be no reason for more than 36,000 people to die of the suffocating disease that up to now has been the nation's third biggest killer. The official news of this medical triumph came from the Food and Drug administration, which last week licensed the sale of sulapyridine.

Sulapyridine acts on all 32 types of pneumonia. First used in England last year by Pathologist Lionel Ernest Howard Whitby of London Middlesex hospital, the drug was given a seven-month workout by conservative experimenters in hospitals all over the U. S.

In the first large-scale U. S. clinical report on sulapyridine, published last month, Dr. Harrison Fitzgerald Flippin and associates of Philadelphia cautiously announced that the drug reduced pneumonia mortality from about 25 per cent to 4 per cent. But last week Professor Charles Fremont McKhann of Harvard threw figures to winds, joyfully proclaimed to the Dallas Southern Clinical Society: "People just won't die from pneumonia anymore."

Political Note

Elliott Roosevelt remarked in his semi-weekly radio broadcast from Fort Worth: "John Garner is in the driver's seat right now, well in the lead as a likely Democratic candidate for the Presidency in the 1940 elections."

Horsemen Ship Thoroughbreds To Tanforan Meet

Thoroughbred reinforcements are this week en route to Tanforan from New Orleans. Three stables are shipping here, and although the exact identity of the invaders has not yet been learned, it is believed the shipment contains several top liners, as well as a strong assortment of hard-hitting platers.

Clarence Shockley, the turfman who started the vogue of importing South American horses to the United States, is bringing a carload with Eugene Drillon, a well known Western turfman. Then there's a division of the Mrs. V. Wyse stable en route, and their arrival will put this outfit at full strength as Mrs. Wyse already has a division in action here.

Reports from Santa Anita indicate that A. A. Baroni will ship his good handicap horse, No Dice, North for Tanforan's Spring handicap — the Marchbank Handicap, April 22.

The John Hay Whitney pair, Roman Hero and Sidney Carton, whose shipment from Santa Anita was delayed, arrived Wednesday. They are pointing for the \$2,500 Can Bruno Handicap at six furlongs for 3-year-olds Saturday.

Plan To Regulate Ambulance Service

Provisions of a proposed ordinance regulating ambulance service in San Mateo county were discussed recently at a meeting of ambulance operators with Dr. C. C. Gans, county health director, in Redwood City.

The ordinance as outlined by Dr. Gans would require:

1. All ambulance drivers to qualify for first aid certificates.
2. All ambulances to operate under a county permit, issued only if rules and regulations of the health department have been met.
3. Two men to each ambulance.

The ambulance operators look with favor on the proposal, Dr. Gans said, provided the fees paid by the county for indigent cases will be increased. Donald Johnson, South San Francisco; Wilbur Krell, San Mateo, and Francis Tinney, Redwood City, were appointed to represent the ambulance service operators in discussing the proposed ordinance with Dr. Gans and his sub-committee.

Dr. Gans also proposed a central dispatcher system to prevent unnecessary runs to accidents already covered and to provide adequate standby service.

Discuss Plans For S. M. Day At Exposition

Suggestions for San Mateo County Day at the Golden Gate International Exposition were discussed at the first meeting of the County Day committee in San Mateo Monday night.

Ideas for events, stunts and publicity were submitted from all parts of the county. The San Mateo county day, June 11, is expected to draw a huge attendance from the Peninsula. George S. Davis of Millbrae is chairman of the committee, with Chester P. Lipmann acting as secretary.

Among ideas discussed were suggestions from C. R. Ireton, Veterans of Foreign Wars, Daly City Post, that all bands and uniformed bodies be invited to stage a parade on Treasure Island and the Exposition officials be requested to furnish passes for these participants. Mr. Ireton also suggested colored moving pictures of the Coastside as well as residential areas of the county.

Herbert G. King, Daly City Fathers' Forum, suggested that cards be handed out inviting Fair visitors to visit San Mateo county.

Dean Morris of San Mateo junior college was appointed on a committee to see that all schools in San Mateo county participate in some way and thus be given the opportunity to see the Fair.

Mrs. F. M. Perkins, president of San Mateo County Federation of Women's Clubs, submitted the suggestion that a miniature fiesta be arranged in the exhibit room of the Mission Trails building featuring both the floral and agricultural products of the county.

Fire Apparatus

Must Have Right-of-Way

George Hickey, Daly City youth, was fined five dollars in Judge Clay's court last week for failure to yield highway right-of-way to fire apparatus.

The offense occurred at San Jose avenue and Flournoy street, Sunday, March 19. Police Chief Hilton announced several reports have been made recently declaring that fire apparatus right-of-way has been violated. "This dangerous practice must be stopped," he said. "Officers have been instructed to arrest and prosecute all offenders."

Joint Highway district 10 this week had filed formal request with the board of supervisors for an allocation of \$6,450 and San Mateo county's share of the cost for extending Junipero boulevard from Lawndale to San Bruno.

Cost of the construction, known as contract 4, will be \$426,000, it was explained. Of this amount, all but \$86,000 in sponsors' costs will be paid by WPA. San Francisco has agreed to pay 85 per cent of the sponsors' costs, \$36,550, and San Mateo county has been requested to set up its share in the 1939-40 budget.

Councilmen Hold Important Session

Today marks the inauguration of Daly City's own engineering department. By a unanimous vote Monday evening the Board of Councilmen provided for the setting up of an engineering department here and the appointment of a full time engineer.

Previously R. A. Klassen, working out of George A. Kneese's Redwood City office on a part time set up, has served this city as engineer.

Monday evening the city council instructed Attorney Rapsey to prepare an ordinance prohibiting trespassing in buildings under construction. The ordinance will be introduced at the next regular council meeting.

Daly City's new city hall will soon be completed and ready for occupation, according to PWA Resident Engineer J. F. Castelan. Work is more than three-quarters completed with all concrete poured, plumbing and heating nearly in, and interior partitions under construction.

Work is still to be done on a retaining wall with fence, paving in driveways, landscaping, and jail facilities. The new city hall will be ready for use approximately the middle of May. Date for dedication ceremonies to be sponsored by the Native Sons and Daughters is to be announced soon.

On the first floor will be located offices for the city clerk, water superintendent and staff, city engineer, and police. Council chambers, justice court and mayor's office will be located on the second floor.

Progress on the city hall has been highly satisfactory. Responsibilities and obligations of the contractors, architect, local and federal authorities have been carried on high standards to effect speed and quality workmanship on the structure.

Daly City's new key civic building was financed by a local bond issue and a 45 per cent grant from the federal government.

Fear 1300 May Be Dropped By W.P.A.

Approximately 1300 persons will be dropped from Works Progress Administration relief rolls in San Mateo and four other counties in this district unless additional funds are available by April 5, George Mead, district W.P.A. administrator, announced this week.

Mead said he was unable to estimate how many would be dismissed in San Mateo county until a survey of projects has been completed.

He stated that the reduction will be made by discontinuing projects for which the sponsor's contribution was below the required amount and other "least desirable" projects.

The cut was started March 30 and will continue until April 5 unless additional funds are made available. Other counties besides San Mateo in this district are Santa Clara, Santa Cruz, Monterey and San Luis Obispo.

Auto Club Opposes Compulsory Tests For Motorists

Motorists of California would be subjected to fees aggregating millions of dollars under a compulsory mechanical inspection proposal presented to the present Legislature, and other disadvantages would result far outweighing any possible benefits, the California State Automobile association declared in a statement opposing the measure.

The measure, it was pointed out by the association, would permit any city, county, or city and county to require by ordinance periodical mechanical inspection, for a fee, of any motor vehicle owned by residents or operated by anyone employed within the area. One of the results, the association commented, would be a threatened breakdown in the existing policy of uniform statewide motor vehicle regulations.

"Prior to the 1937 session of the Legislature," the association statement said, "the Assembly Interim Committee reported against compulsory inspection, declaring that 'compulsory inspection of motor vehicles quickly results in a commercial racket costly to the motoring public without being effective in the reduction of traffic accidents.' An inspection measure then pending was defeated. This action was confirmed early this year by the Motor Vehicle Advisory committee when it went on record in opposition to forced periodical mechanical inspection for a fee.

"One of the many fallacies of compulsory inspection is that when a motorist receives his inspection certificate he is inclined to feel that no further attention to his car's condition is needed for the next six months.

"Reliable statistics demonstrate that mechanical defects are found in only a slight percentage of accidents. California law already makes it illegal to operate a car that is in unsafe condition. Highway patrol officers have full authority to stop and inspect any vehicle if there is reasonable cause to doubt its safe condition."

D. C. Ambulance Rushes To Aid of Crash Victims

The Daly City Ambulance Service proved its ability to cover efficiently all points of San Mateo County Saturday night, when a three-car accident occurred on the Bayshore highway near Brisbane.

Joe (Al) Garibaldi, operator of the local ambulance and taxi fleet, happened to pass the scene shortly after the accident. As no ambulance had arrived, Garibaldi called his own ambulance. The seven victims of the crash had lain on the highway for half an hour before Garibaldi phoned his ambulance, which promptly answered the call, and removed several of the injured to the South San Francisco hospital before other ambulances arrived.

Garibaldi stated that more than 20 calls have been handled since the addition of the new ambulance a month ago.

A total of 305 bills affecting motorists in one way or another are pending in the Legislature, according to the California State Automobile association. Of the total, 185 apply to motor vehicles and their operation and 120 pertain to streets and highways.

Dealers Preview New Low-Priced Studebaker

More than 500 Studebaker dealers of northern California and their guests attended a banquet and preview showing of the new low-priced Studebaker Champion at the Fairmont hotel in San Francisco Monday afternoon.

Principal speaker was C. K. Whitaker, president of Studebaker Pacific corporation, who listed the reasons for Studebaker's entering the low-priced field.

Moving pictures of the new car in action were shown, revealing many revolutionary improvements in car design.

Formal announcement will be made by the company April 9. William J. Sweeney is the local Studebaker dealer.

Something To Think About

Here is something to think about—

For every murder you read about in your newspaper, there are at least 10 people killed in accidents. For every death by suicide, there are six lives lost in accidents. These figures are from statistics compiled by the National Safety council.

Come to think of it, there is many a traffic accident that might be classed under the head of either murder or suicide. A driver whose car is a murderous weapon because he flagrantly disregards the safety of others is just as dangerous as a man with a gun. Because such an outlaw may be lurking around the next bend in the road, the next crossing, or even where it would seem that there is no possibility of mishap, it behooves every motorist to be constantly on the look-out for this menace to his safety and the safety of the passengers in his car.

San Mateo County Traffic Safety Commission.

A total of \$10,000,000 recently was apportioned among the states by the Federal government for construction of forest roads and trails, reports the California State Automobile association.

Aurandt Stars At Annual Press Party Last Friday

Another local boy made good last week when Dick Aurandt, young San Francisco orchestra leader, who is making his first appearance at the Rose Room Bowl at the Palace hotel, "stole" the show away from an imposing number of big time headliners at the annual newspaper guild party, the "Front Page Frolic" held last Friday at Aquatic park.

Before a crowd of more than 2,500 newspapermen and women and their friends, Aurandt, who was invited as guest conductor for the evening, impressed his audience with his ability as a musical conductor and showman.

On the lengthy entertainment program were Maxine Sullivan, negro singing star, a fully-clothed Sally Rand, Band leader Joe Reichmann, the Abbott Sisters, and a score of talented artists from various night clubs.

The debonair Aurandt rendered a medley of swing and popular semi-classics which brought encore after encore.

The Frolic was held under the auspices of the San Francisco-Oakland Newspaper Guild.

Proceeds from the affair will be used to entertain newspapermen and women from all over the United States when they gather here July 31-August 5 for the sixth annual convention of the American Newspaper Guild.

The county road system of 86,923 miles serves 28.8 per cent of all traffic on rural roads in California, a recent survey showed.

Apple Days Are Here Again

Here's a spicy apple pie that men praise to the skies!

Husbands go simply wild about this marvelous apple pie! Wives are proud to serve it. What's more, it's easy as can be to make.

If you want your family to swear you're the world's best cook, set this Spicy Apple Pie on the dinner table. Juicy amber apples with wonderful spicy tang. And a golden crust that's so tender and flaky it fairly melts in your mouth.

Good cooks are amazed how much flakier and lighter their pastry is, made with this simple recipe. So delicious, in fact, that they use it for all their pies. And don't worry if the family takes second helpings, for this flaky crust is easy to digest.

SPICY APPLE PIE

1 recipe Spry Pie Crust
8 large tart apples, sliced thin
1 cup sugar
1 teaspoon cinnamon
½ teaspoon nutmeg
½ teaspoon salt
1 teaspoon lemon juice
1 tablespoon butter
Roll ½ of dough ¼-inch thick and line 9-inch pie plate. Fill with sliced apples. Mix sugar, spices, salt and lemon juice. Sprinkle over apples. Dot with butter. Moisten edge of pie crust with water. Roll remainder dough for top crust, cut a few gashes in center and fit over apples. Seal edge of pie. Bake in hot oven (425° F.) 30 to 40 minutes.

FLAKY PIE CRUST

Tender and digestible, too
2½ cups sifted all-purpose flour
1 teaspoon salt
¾ cup Spry, new vegetable shortening
5 tablespoons cold water (about)
Sift flour and salt together. Add ½ of Spry and cut in until mixture is as fine as corn meal (so much easier and quicker with this ready-creamed shortening). Add remaining Spry and continue cutting until particles are size of a navy bean. Sprinkle water, 1 tablespoon at a time, over mixture. With a fork, work lightly together until a dough is formed. This recipe makes enough pastry for a 2-crust pie.

Daly City Library Has Acquired Spring Aspect With Colorful Display

With daffodils and primroses dancing in the sunlight, the Daly City library takes on a spring aspect this week. One of the most attractive displays of the season is now being shown, transforming an entire library table into a spot of color and gaiety resembling nothing so much as a flower garden. Featuring fragrant spring-time blooms, miniature gardening implements, and books whose glossy pictures rival those of the seed catalogues, this display is guaranteed to make any flower-lover's heart miss a beat.

Gardening As Hobby

So little time or money is required to transform the drabest dwelling into a place whose beauty makes passers-by catch their breath, that more people each year are reading the enchanting and instructive modern books on gardening now available.

Whether you are only a hopeful beginner who can't tell a cabbage plant from a rose-bush, or whether you are a veteran muttering sagely of "tradesantia zebrina," you will

be sure to find material to interest you in the fine collection of books now on display.

From the simplest descriptions of when and where to plant sweet peas, these books range to intricate discussions of color schemes and rare varieties of bulbs, cactus, and wild-flowers.

Every Phase

The majority of this material, however, is designed for the pleasure and instruction of the ordinary backyard gardener. Covering every phase of the subject from insect pests to planting schedules, these books present the amateur flower-lover with invaluable suggestions for using his own small plot of land to the best advantage.

Proof of the pleasure and profit in this fascinating pastime may be found in the lovely real blooms on display among the books. Including daffodils, camellias, gladioli, and primroses, these beautiful bouquets were all selected from the librarian's own spring garden, blooming now in Daly City.

Many Titles

Among the books shown may be found such titles as: Annuals for Your Garden, The Cactus Book, Color and Succession of Bloom in the Flower Border, Pioneering with Wild Flowers, The Book of Bulbs, The Garden Calendar, Modern Guide to Successful Gardening, The Little Garden for Little Money, and Garden Flowers in Color.

Expected to be in especial demand for spring planting is a new book recently ordered by the library, "Gardening in California" by Sidney Mitchell.

Christian Science Lesson Sermon

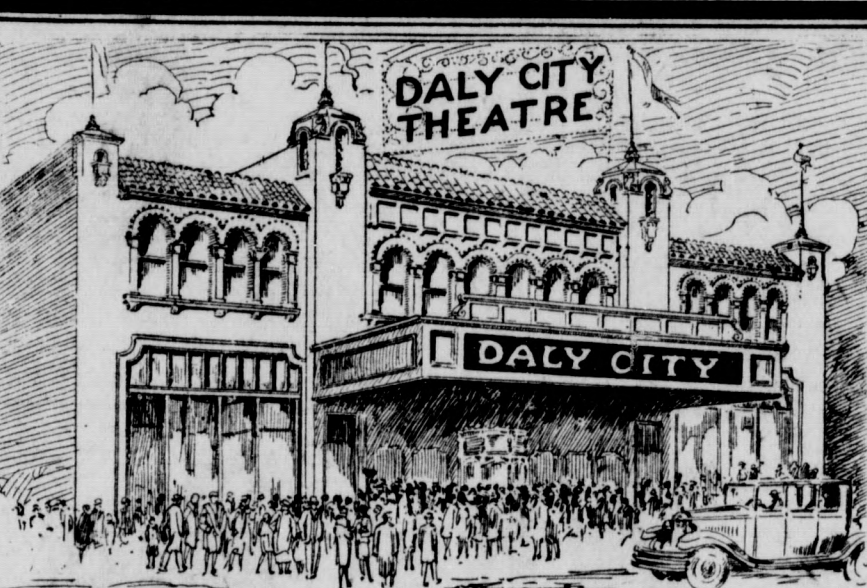

"Unreality" Is Subject

"Remove far from me vanity and lies: give me neither poverty nor riches; feed me with food convenient for me." These words from Proverbs comprise the Golden Text to be used Sunday, April 2, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

The subject of the Lesson-Sermon will be "Unreality." Included among the Scriptural selections will be: "Beloved, believe not every spirit, but try the spirits whether they are of God: because many false prophets are gone out into the world. . . . We are of God: he that knoweth God heareth us; he that is not of God, heareth not us. Hereby know we the spirit of truth, and the spirit of error" (1 John 4:1, 6).

The following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Because Truth is in nature, error should be known as nothing. Because Truth is omnipotent in goodness, error, Truth's opposite has no might. Evil is but the counterpoise of nothingness. The greatest wrong is but a suppositious opposite of the highest right. The confidence inspired by Science lies in the fact that Truth is real and error is unreal. Error is a coward before Truth. Divine Science insists that time will prove all this. Both truth and error have come nearer than ever before to the apprehension of mortals, and truth will become still clearer as error is self-destroyed" (p. 367).

TRAVEL COSTS—SMALLEST EVER

These girls from Sally Rand's Nude Ranch, visiting the Greyhound Exhibit on Treasure Island, illustrate with "figures" the marked reduction in travel costs in California. For example, the Greyhound fare between Los Angeles and San Francisco has been cut from \$13.00 in 1920 to the all-time low of \$5.15 in 1939. It looks like both Greyhound's fares and the girls' costumes have reached an irreducible minimum.

Choose Drama By Charles Dobie For Mountain Play

For the current production of the annual drama on Mt. Tamalpais, the Mountain Play association has again forsaken the realm of classic drama in favor of an original play by a contemporary playwright.

Nationally known Charles Caldwell Dobie, San Francisco, is the author of "The Valiant Cossack," which will be staged Sunday, May 21.

A story of "Holy Russia" of the middle ages, the play deals with legend and mysticism and tells of Ilya, a peasant of the village of Muro, somewhere in the vast forests of a far away country.

Performance of "The Valiant Cossack" will mark the twenty-sixth annual production of the Mountain Play. Each year, since 1913, the group of enthusiasts responsible for this unique spectacle have staged a single performance before an audience of some five to seven thousand.

Setting for the Mountain Play is a natural amphitheatre near the top of Mt. Tamalpais, where the vast audience sits facing a panoramic view of the Pacific Ocean, the Golden Gate, San Francisco, Treasure Island, and the cities of the East Bay.

Students Form Audubon Society At Woodrow Wilson

The opportunity class of the Woodrow Wilson elementary school has been studying birds. They became so interested in the subject that they invited other classes to help them form a Junior Audubon society.

As a result, a club of one hundred twenty members has been formed, with the following officers: president, John Mosman; vice president, Billy Wilson; secretary, Jennie Guisti; distributor, John Janssen; sergeant-at-arms, Frank Delfino; advisors, Miss Vireno, Miss Crouch, Miss Mooney and Mrs. Hahn.

As this vicinity has a wealth of birds and it is the time for northern migrations, a great number will be observed. To further the observations, the club plans to build some feeding trays and baths. In this way, they expect to learn the names and habits of many birds.

See Film

On Friday, the students of the Woodrow Wilson elementary school saw a film entitled "From Mine to Consumer." It was an interesting two-reel film on copper and brass. It showed each step from the actual mining of copper ore to the finished products. It also showed how brass was formed from combining copper and zinc. The film was taken in the largest copper and brass factories in the U. S., "The Anaconda" and "The American Brass Co." Before the film, the students were shown actual examples of copper and brass in their various forms, such as sheets, tubes, wire, solid blocks, etc. They were also shown the finished art metal projects made in copper and brass, such as letter openers, book ends, book marks.

The film was shown under the supervision of Mrs. Rose Corral, arts and crafts teacher, and Miss Mabel Vireno, social studies teacher.

Reformed Outlaw At Greenwich Village

Roy Gardner, famed reformed outlaw, took up his permanent abiding place this week in Greenwich Village, the little metropolis of entertainment which climaxes the Gayway of Treasure Island.

Gardner has laid out the famous Oregon boot, shackles, chains and handcuffs, and a plentiful supply of copies of his book, "Hellcatraz," on which he lectures. His lecture is the "crime does not pay" type, but he speaks perfectly informally and in conversational style, particularly stressing the fact that never during his career of crime or the series of sensational escapes which he engineered did he at any time use a gun, or any dangerous weapon.
